

BOARD MEMBER RECOGNITION OF SERVICE

Service to the local School Board is a commitment to the betterment of our youth and community, a means to promote the welfare of our people and our democratic way of life. School Board service calls for a selfless dedication to serving the needs of the local community. Board members devote many hours to this public service, and are called upon to make tough and sometimes unpopular decisions to support a quality education for the good of our children.

In recognition of this service to the school community, the District will provide an appreciation gift for each Board member at the conclusion of their service on the Board.

The gift will be a recognition plaque (from the WASB catalogue or of a similar design), listing the term of service to the Board.

Gifts will be presented during a short, informal ceremony at the retiring member's last Board meeting. The District will provide refreshments.

The Board may, at its own discretion, provide similar recognition to other retiring members of the staff for outstanding service to the District.
