

GIFTED AND TALENTED EDUCATION

The School District of Brodhead recognizes that while all students have passions, gifts and talents, some possess them to an extraordinary degree in one or more of the following areas: general intellectual ability, specific subjects or disciplines, leadership, creativity, and visual and performing arts. The District is committed to supporting students in developing these passions, gifts, and talents through the use of District resources.

The goal of the District is to meet students' identified educational needs through differentiated instruction and through acceleration within a departmental structure. District staff will work with parents and teachers to identify students' learning needs and make decisions about how to best meet those needs with the resources available.

The School District shall not discriminate on the basis of any protected category under Wisconsin or Federal Statute.
